GEWÖLBKELLER HAFENCITY

The car museum PROTOTYP designer loft space opened in Hamburg's HafenCity district in April 2008.

The fascinating building is home to numerous rooms for events that can hold up to 1,200 guests. The old industrial architecture was combined with modern architectural elements as part of the renovation.

The result is a special location that leaves nothing to be desired.

The basement is divided into the Lounge (304 m²) and Nordtrakt (111 m²) rooms. One highlight is the atmospherically lit underground section, which will give your event a very special ambience. There is also a bar available for use at your event.

A cargo lift makes it easy to get all extra equipment to the right place.

Facts and features

- Safe from storm tides
- No local residents
- Atmospheric lighting
- On-site bar
- Artist backstage area
- Staff toilets and showers
- Cargo lift

Technology

- Professional technical equipment
- Wi-Fi
