

TRAITEUR WILLE

FEINE KOCHKUNST

Prototyp lofts

The listed factory building in the HafenCity district is a highlight for fans of historical industrial architecture – a wonderful, unique venue built from red brick and cast iron that dates back to 1904, which has been redesigned with modern, transparent architecture for its modern-day use.

Today, the building features an exceptional collection of historical and lovingly restored cars located on the first floor, which has been available to view since April 2008.

The Prototyp lofts function areas are situated on the ground floor, basement level and the fifth floor, where extensive renovation was completed in 2010.

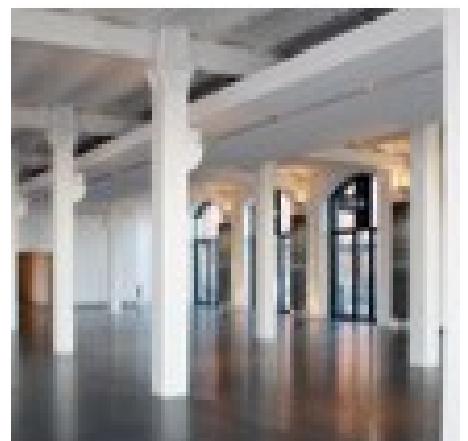

Prototyp lofts offer space to organise events for up to 1,200 people.
